

Dr. Ambedkar Open University
Faculty of Science
Department of Zoology
M.Sc First Year (Zoology)
Course-I (Animal Diversity & Ecology)
Assignment-1 (2018-2019)

Maximum Marks-15
Minimum Marks-06

Section- A (10 marks)

- I. Answer any one of the following questions in about 30 lines**
1. Describe the circulating system in Echinodermata.
 2. Write a note on origin and evolution of Mammalian Heart.

Section –B (5marks)

- II. Answer any one of the following questions in about 15 lines.**
1. Write a note on general characters and classification of Protozoa.
 2. Give a brief account on major geographical Realms/Biomes and its diversity.

Dr. Ambedkar Open University
Faculty of Science
Department of Zoology
M.Sc First Year (Zoology)
Course-I (Animal Diversity & Ecology)
Assignment-2 (2018-2019)

Maximum Marks-15
Minimum Marks-06

Section- A (10 marks)

- I. Answer any one of the following questions in about 30 lines.**
1. Describe briefly the evolution of aortic arches in different vertebrates.
 2. Explain the excretory organs in Arthropoda.

Section –B (5marks)

- II. Answer any one of the following questions in about 15 lines.**
1. Write a note on Oceanic region and its diversity.
 2. Write a note on Mammalian Ear.

**Faculty of Science
Department of Zoology
M.Sc First Year (Zoology)
Course-II (Cell and Molecular Biology)
Assignment-1 (2018-2019)**

Maximum Marks-15

Minimum Marks-06

Section- A (10 marks)

- I. Answer any one of the following questions in about 30 lines.**
1. Explain the structure and function of Endoplasmic Reticulum.
 2. Describe in detail the structure of DNA.

Section –B (5marks)

- II. Answer any one of the following questions in about 15 lines.**
1. Describe in detail about Electron Microscope.
 2. Write a note on Tryptophan (trp) Operon – a negative repressible system.

**Dr. Ambedkar Open University
Faculty of Science
Department of Zoology
M.Sc First Year (Zoology)
Course-II (Cell and Molecular Biology)
Assignment-2 (2018-2019)**

Maximum Marks-15

Minimum Marks-06

Section- A (10 marks)

- I. Answer any one of the following questions in about 30 lines.**
1. Enumerate the characteristics of second and third messengers in signalling and communication.
 2. Write an essay on genetic code and its importance in Protein synthesis.

Section –B (5marks)

- II. Answer any one of the following questions in about 15 lines.**
1. Write a note on selective transport of proteins to and from the nucleus.
 2. Write a note on Tumor suppressor genes.

Faculty of Science
Department of Zoology
M.Sc First Year (Zoology)
Course-III (Animal Physiology & Physiological Chemistry)
Assignment-1 (2018-2019)

Maximum Marks-15

Minimum Marks-06

Section- A (10 marks)

- I. Answer any one of the following questions in about 30 lines.**
1. Describe the structure of pituitary and explain the role of hormones secreted by it.
 2. Describe in detail about the transportation of Respiratory gases.

Section –B (5marks)

- II. Answer any one of the following questions in about 15 lines.**
1. Write a note on principles of Haemodynamics.
 2. Write an account on the enzymes involved in the process of digestion of proteins.

Dr. Ambedkar Open University
Faculty of Science
Department of Zoology
M.Sc First Year (Zoology)
Course-III (Animal Physiology & Physiological Chemistry)
Assignment-2 (2018-2019)

Maximum Marks-15

Minimum Marks-06

Section- A (10 marks)

- I. Answer any one of the following questions in about 30 lines.**
1. What is synapse. Give an account on types of Synaptic Transmission.
 2. Discuss briefly the chemistry and structure of Disaccharides and Polysaccharides.

Section –B (5marks)

- II. Answer any one of the following questions in about 15 lines.**
1. Discuss the role of complement C3b complex and Receptors in Opsonization in phagocytosis.
 2. Write a short note on ultra structure of skeletal muscle.

Dr. Ambedkar Open University
Faculty of Science
Department of Zoology
M.Sc First Year (Zoology)
Course-IV (Human Cytogenetics & Developmental Biology)
Assignment-1 (2018-2019)

Maximum Marks-15
Minimum Marks-06

Section- A (10 marks)

- I. Answer any one of the following questions in about 30 lines.**
1. Describe about the structural chromosomal abnormalities.
 2. Describe the Cellular mechanism during gastrulation and briefly give a comparative account of gastrulation in Fishes, Amphibian, Birds and Mammals.

Section –B (5marks)

- II. Answer any one of the following questions in about 15 lines.**
1. Describe the procedure of FISH (Fluorescence In-Situ Hybridization) and its applications.
 2. What is Myogenesis? Explain the differentiation of skeletal muscle.

Dr. Ambedkar Open University
Faculty of Science
Department of Zoology
M.Sc First Year (Zoology)
Course-IV (Human Cytogenetics & Developmental Biology)
Assignment-2 (2018-2019)

Maximum Marks-15
Minimum Marks-06

Section- A (10 marks)

- I. Answer any one of the following questions in about 30 lines.**
1. Explain in detail about Single Gene disorders.
 2. Explain in detail the establishment axis in Mammals and Birds.

Section –B (5marks)

- II. Answer any one of the following questions in about 15 lines.**
1. Write a note on different types of Mutations with examples.
 2. Describe the ultra structure of an egg.
